

THE KELLEY'S STORY

In early Spring of 2020, we got married and moved from the Canton area to a suburb of Cleveland. We spent that year isolated from friends and family due to Covid. We were desperate for community and a new church to call home. We had heard about Ethos before we even knew we'd be moving to Columbus. Brad's younger brother attended one of the first church plant meetings with his friend, Lane. When we heard some of our closest friends were moving to Columbus, we knew that we would find our community there. We thought we'd try out Lane's church and had an amazing experience from day one!

Walking into Ethos, we felt the warmest welcome! The truly authentic voices we heard from the stage spoke messages of wisdom, truth, and love week after week. The worship experiences created a space where we felt the Lord move. We wanted to meet more of the people who made up this church. It wasn't long until we were feeling God calling us to start serving.

The best thing that's happened to us since joining Ethos has been creating community with the group we joined. We have had the opportunity to be there for those who needed someone, and in turn others have supported and encouraged us during our times of need. This is the most genuinely fascinated we have been with who God is in our adult life. Through Ethos YA, groups, and serving on teams, we are choosing to do life while surrounded by our family in Christ. God has called us to act in ways that we didn't expect, including going on the mission trip to El Salvador in July. It is exciting to be a part of something so much bigger than ourselves.
