

THE HILLS' STORY

The chapter we were in before we found Ethos was **heartbreaking**. For personal reasons we were on a hunt for a new church family, which anyone knows with kids can be a tough process.

My husband was at a middle school youth camp with our oldest son when he had a **profound** interaction with one of the pastors there that knew Jordan and Courtney. That pastor connected my husband and Jordan and that's just the beginning of how our journey into Ethos began. It is **mind blowing** when the Lord uses people to speak into your life and they may not even know how on time and how needed it is.

All the things we had been praying for in a church were not only just present when we walked in the doors. But they were **highlighted, valued and intentional**. We are able to witness the heart of Ethos not just by words, but through actions. We were absolutely not prepared for how **beautiful** this community would be.

In this family called Ethos Church, when you hear the Lord calling you to something; they without hesitation **support** you, **nurture** you, and come **alongside** you. We have felt drawn in by so many ways, and we have the privilege to serve with the middle and high school students. This has been such an **answer** to prayer and seeing doors open in unexpected ways has honestly blown our minds! Whatever happens in this crazy life we are so thankful we get to walk through it with **Jesus** and this **community**.
